EVERY FEW MONTHS
Clean and oil area behind face plate.

- It is not essential, but you will find this easier to do if you remove the top cover first, as described below.
- After oiling this area of the machine, sew a few lines of stitching on a scrap of material to remove excess oil.

Apply a Drop of Oil to Each Spot Shown

Removing and Replacing Top Cover

Move take-up lever to a low point

1. Open stitch chart and remove screw A; slide the top cover toward left and off machine.
2. Replace cover by positioning it on top of arm with a slight overhang on left side; slide cover to the right until it locks in place.
3. Replace and tighten screw A.
